

C. *mecA* + ACME cassette (JE2)

Functional module (number = diagonal block outline)

- | | |
|---|--|
| 1. cell wall homeostasis | 6. nickel/oligopeptide ABC transporter (ACME) |
| 2. HVR+mecA (mecA cassette) | 7. copper resistance (ACME) |
| 3. cassette replication (mecA cassette) | 8. sulfide response |
| 4. putative defense module (mecA cassette) | 9. sulfide response (split sqr gene) |
| 5. arginine catabolism (ACME) | |
