

A. N315 core genome – capsule region

genes (genomic order) →
Functional module (diagonal block outline)

- | | |
|---|---|
|  phosphonate ABC transporter |  CapHIJK (variable region) |
|  RosmerTA bacteriophage defense addiction |  CapLMNOP |
|  CapABC |  sulfonate ABC transporter |
|  CapDE |  aureusimine nonribosomal peptide biosynthesis |
|  CapFG |  arginine biosynthesis |
